THE ORIGIN STORY

Yasmine Palace has become a must-experience attraction in Qatar, and stories of this celebrated destination traverse the region.

The concept was born from a passion for historical architecture and cultural styles, spanning many centuries and influences.

It draws inspiration from Andalusia, the Levant and the Arabian Gulf with each motif and style within Yasmine Palace carefully curated by the owner and designed to reveal a story of enriching travels, exploration and study of the profound history of these regions.

An homage to the arts, its palatial splendor harks to an age of golden achievement, when dynastic leaders like Saladin and forward thinkers such as Ibn Al Haitham helped shape the future of their peoples.

It is hoped that Yasmine Palace will endure as a key monument in the modern legacy of the Arab Gulf region and attract more people to experience regal hospitality in the finest venue of its kind.

SALAH AD-DIN AYYUBI

Saladin is the founder of the Ayyubid dynasty but his conquests far overshadowed his passion for academics. He championed the values of education throughout his territories and was an expert on the “sciences of religion”.

He was also quite the historian and had command by rote of the genealogies, biographies, and histories of the Arabs, as well as of the bloodlines of contemporary Arabian horses. He could also recite from memory the entire famous anthology of over 800 poems known as Hamasah, while being fluent in arithmetic, and law.

IBN AL-HAYTHAM

IBN AL-HAYTHAM was an Arab mathematician, astronomer, and physicist of the Islamic Golden Age. Sometimes called “the father of modern optics”, he made significant contributions to the principles of optics and visual perception in particular, his most influential work being his *Kitab al-Manazir* (“Book of Optics”), written during 1011–1021, which survived in the Latin edition. A polymath, he also wrote on philosophy, theology and medicine.

Amazing. We stumbled upon this truly beautiful restaurant during our walk on the Pearl. The decor, service and food is Syrian inspired and it will leave you feeling like you had a special experience. The owner's pride is apparent as everything is well thought out and staff are well trained. If you have a liking for shisha, check out their "special pineapple shisha mix" ... a very unique delight! They have patio waterside seating and plenty of cooling fans for the hot days.

If I can rate this place more than 5 stars I wouldn't hesitate. 1st of all, it really looks like a palace. The staff is very cool and friendly. You can eat the best oriental Lebanese food. It was fantastic. You'll feel that it is too expensive which is normal for the view and location. But, portions are massive. The outdoor seating is very nice if the weather is good. Nice views. You can even see the Doha Skyline when you are sitting outside.

5 stars. Went with family, have a small child. The manager assigned a staff member to look after the kids so that my wife and I could enjoy the meal. Very nice gesture, didn't last 15 min as kids came down and joined us! Food was very good but the atmosphere and decor are JUST amazing! Definitely worth a visit.

Just perfect. An awesome experience I had here. The decorations are amazing, service is super. Welcome drinks and complementary appetizers were served. New and creative items showing a talented staff and high quality food. Great menu, features a lot of variety. Service took adequate time to be prepared. Taste was heavenly good. Made me continue eating after I was full. I visited the place again after one week and I got the same experience and the same quality. Totally recommended. I hope they can keep their level of quality like this forever.

There are plenty of establishments with the word “palace” in their name, but this is one of the few places that absolutely lives up to the name! The place legit looks like a palace straight out of 1001 nights! From the staff uniforms to the spacious and stylish decor. Food is delicious and not so pricey considering that you are literally dining in a palace! A must visit.

Went there on my birthday with a few friends. This is one of the few feel-good places in Qatar. The Shami (Syrian) decor was outstanding! The service was impeccable, the prices are decent and the food was scrumptious. It is one of the best Luxurious experiences I have had here and I highly recommend it, especially if you are going with your love.

Great choice. Food is excellent. Ambience is great, and the place actually smells like jasmine flowers. Spacious and well lit. The manager actually makes an effort to try to check on all customers. Took a sneak peak of the shisha menu...flavors I’ve never seen. Price is reasonable for what you get.

Great food. One of the best smoothies in town. Loved the the background music, was lovely (old traditional environment... Syrian melodies). The fountain makes this place unique... the relaxing sound of water compliments this lovely place. Staff very friendly and everything was neat! Not overpriced. We had an amazing wedding anniversary date.

Amazing Experience – Like Dining in a Palace. Had lunch here with our Doha based hosts and the experience was memorable, setting was fascinating, food was exotic and the service was great. The restaurant itself is like a palace with its setup and staff dressed accordingly. The views overlooking the water was majestic. The variety of food on offer was impressive and we chose an Iranian meal which was delicious. Pricing was quite reasonable compared to Western Standards.
